

AMENDMENTS TO THE SPECIFICATION:

Please replace the paragraph at page 10, lines 14 - 23 with the following amended paragraph:

For use, the one-way clutch 1 is inserted into a hole 2a provided at a central portion of a housing 2 which is a member for fitting the outer ring of a pulley, a gear or the like. The hole 2a of the housing 2 is formed with a plurality of recess portions 2b in a groove-like shape at a pitch the same as that of the expanded portion 11b of the outer ring 11. The outer ring 11 is fitted to the housing member 2 to be unable to rotate relatively by fitting the respective expanded portions 11d ~~11b~~ to the recess portions 2b of the hole 2a.
